

# Filler-Sealer for small pouches & tea bags

Now, a perfect low-cost packaging solution for the small business tea, herbal and nutritional products industry.

Sealing Unit

Hopper & Filler

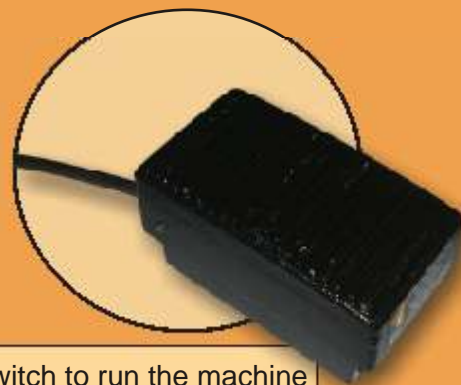

Control panel

The Sikri Filler-Sealer is a bench-top device which enables you fill small pouches like tea bags, single-use nutritional powders sachets, alternate medicines, health supplements, etc. into pre-made pouches and seal them instantly, on-the-fly.

## FEATURES

The bench-top device enables you to **measure** the product accurately and swiftly, **fill** the tea bag or sachet without spilling, and then **seal** the sachet instantly in one seamless operation just like in an expensive automatic machine.

- The device can be attached into an ordinary domestic plug-point no special wiring required.
- It can be kept on - an ordinary work-table and used instantly requires no installation.
- Weighs - only 50 Kilograms (110 pounds approx.).
- Does not require any servicing.
- Available of the shelf at our sales depots in India and the USA. Can be shipped in 3 days.
- Very easy to use within a few days of practice you can get a filling-sealing output of about 500 sachets per hour!
- Operated by a foot switch, keeping both hands free for filling-sealing the sachets.
- ALSO AVAILABLE WITH THE DEVICE
  - Pre-made tea bags in different sizes for filling different infusion products.
  - Pre-made Plain paper-PE / Foil laminate for packing nutritional products.

Foot switch to run the machine - keeping both hands free for faster production.

Machine for Left-handed people

Machine for Right-handed people
